

SHETH L.U.J AND SIR M.V. COLLEGE
SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU
PRACTICAL - 12

AIM: Sharing, Publishing, and Presenting Data Visualizations.

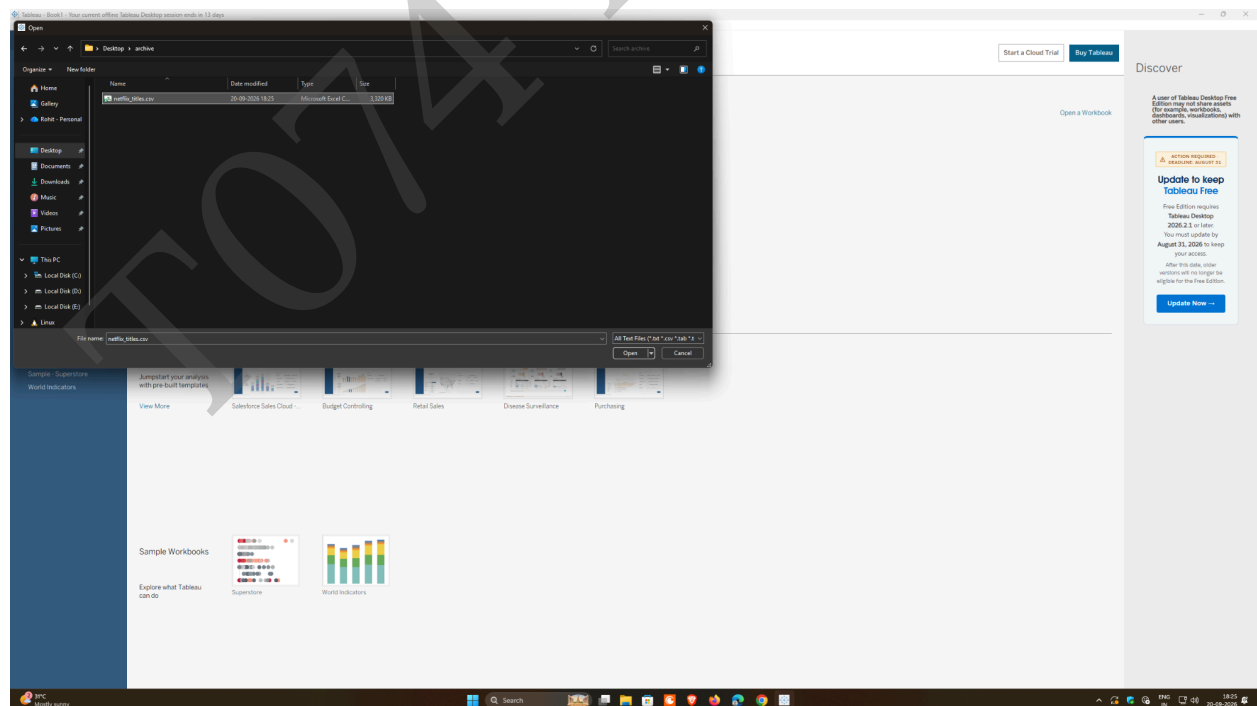

- a) Export dashboards as PDF/Image
- b) Use presentation mode in Tableau
- c) Publish dashboards to Tableau Public
- d) Share dashboards via Tableau Server/Online
- e) Enable user interaction on shared dashboards
- f) Manage permissions and access control
- g) Evaluate and optimize sharing strategies

Dataset: [Netflix Movies and TV Shows](#)

A: Export Dashboards as PDF/Image

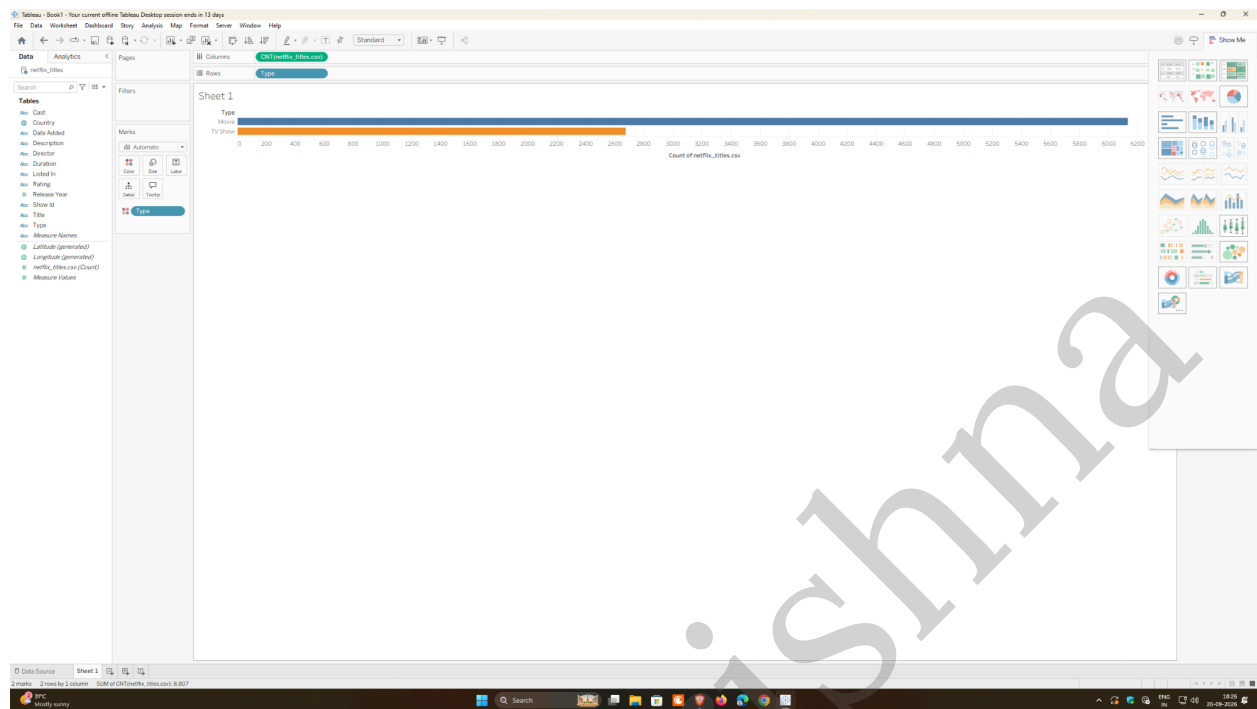

Step 1: Build Two Base Visualizations

Connect **netflix_titles.csv** as a Text File, then drag **Count of netflix_titles/Number of Records** → **Columns** and **Type** → **Color** to create a horizontal **Movies vs. TV Shows** bar chart.

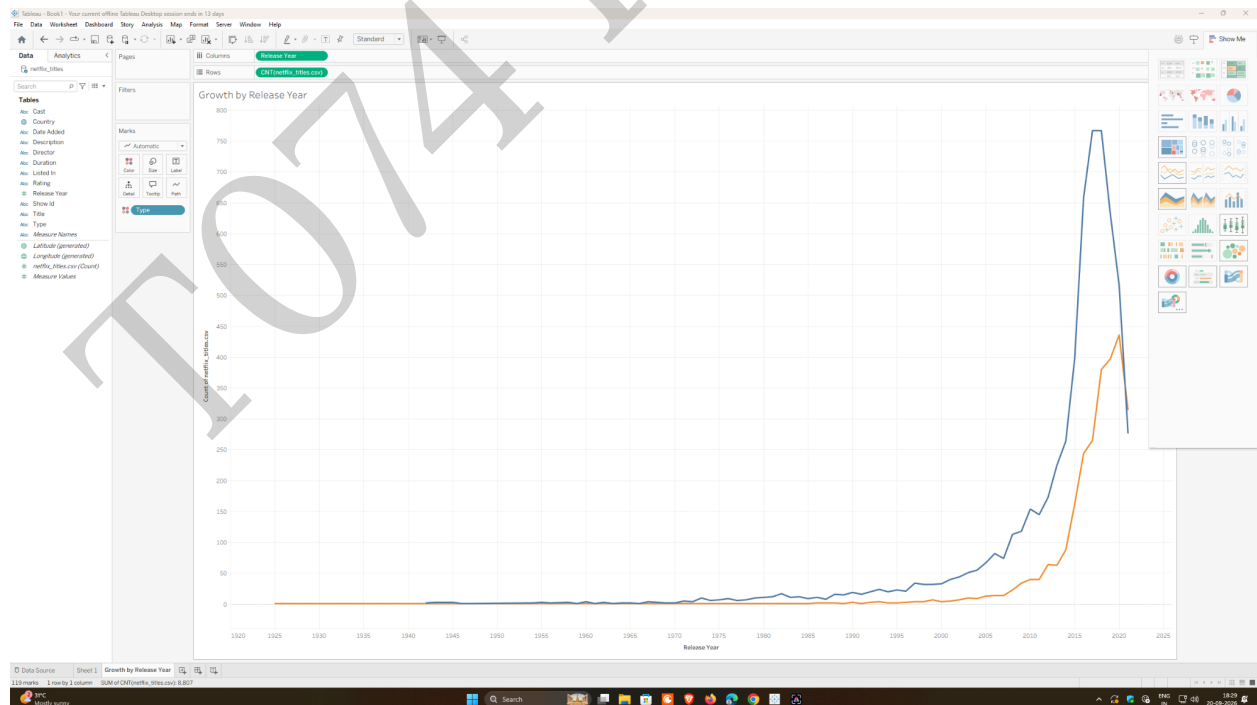

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

Sheet 2: Release Year Growth (Line Chart)

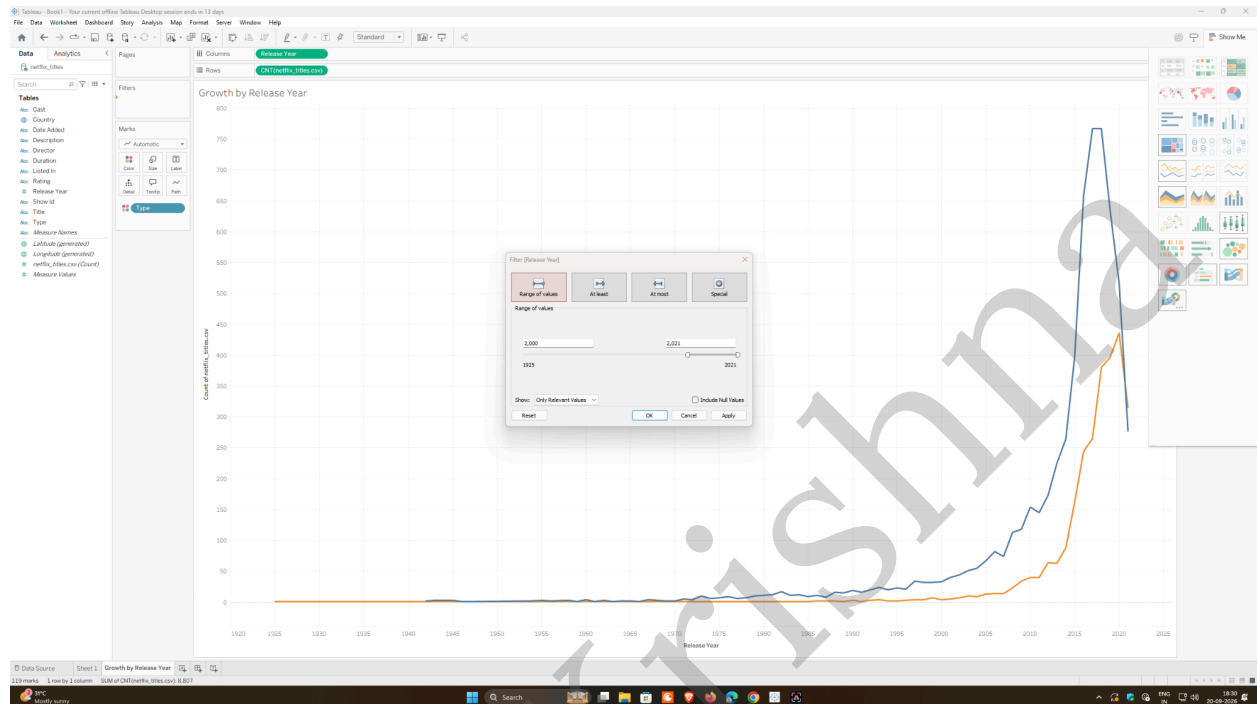

Create **Growth by Release Year**, then drag **release_year** → **Columns (Continuous)**, **Count of netflix_titles** → **Rows**, and **Type** → **Color**.

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

Set **release_year** filter to **2000–2021 (Range of Values)** to remove sparse historical data and display the **dual-line content volume trend**.

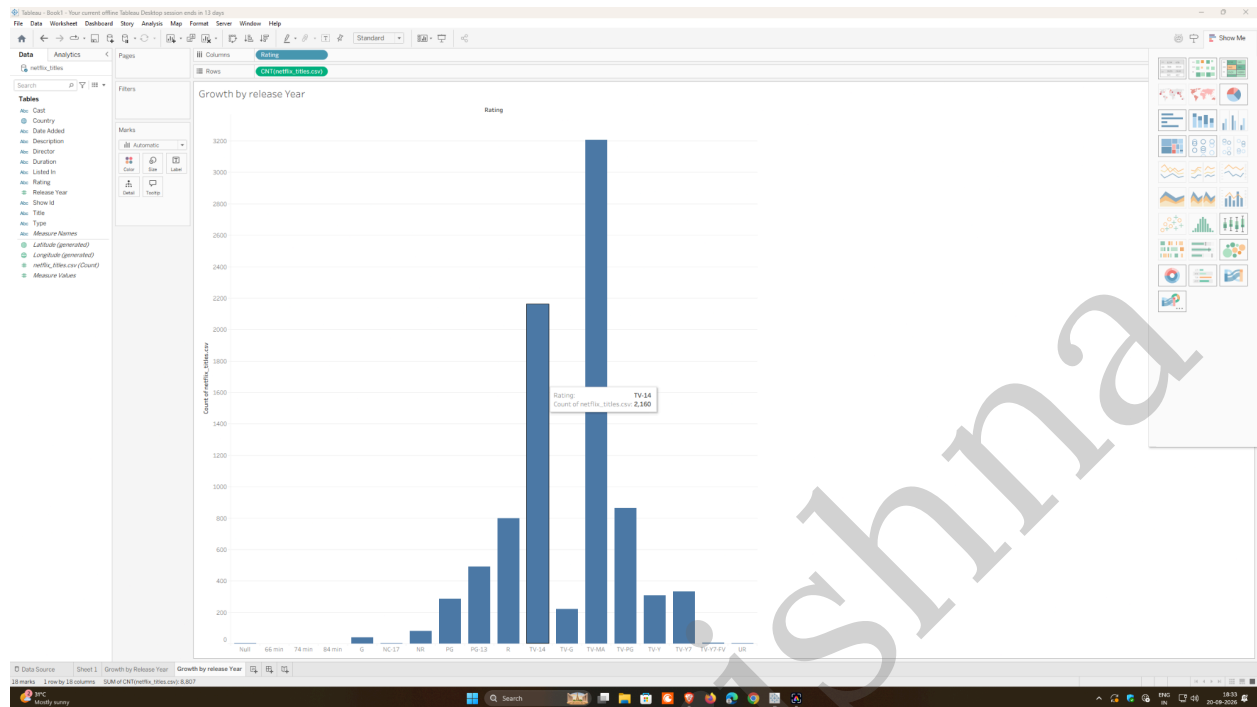

Sheet 3: Top 10 Ratings

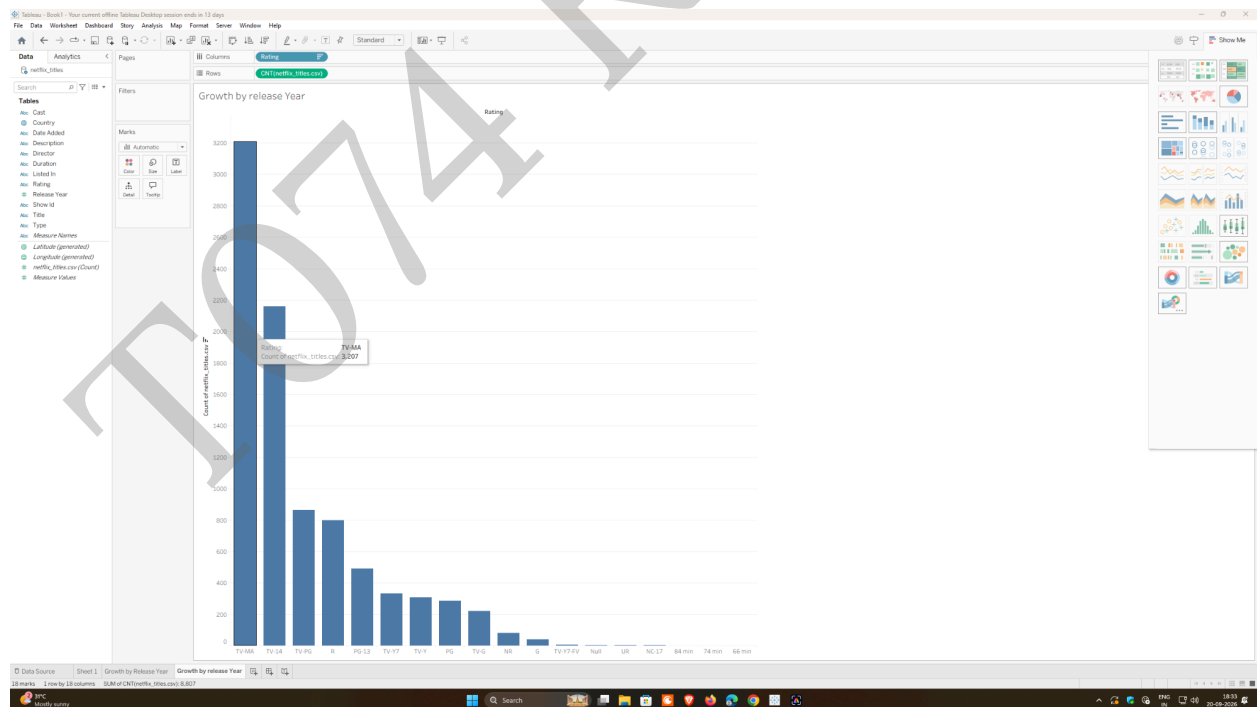

Create **Growth by Release Year**, then drag **Rating** → **Rows** and **Count of netflix_titles** → **Columns**.

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

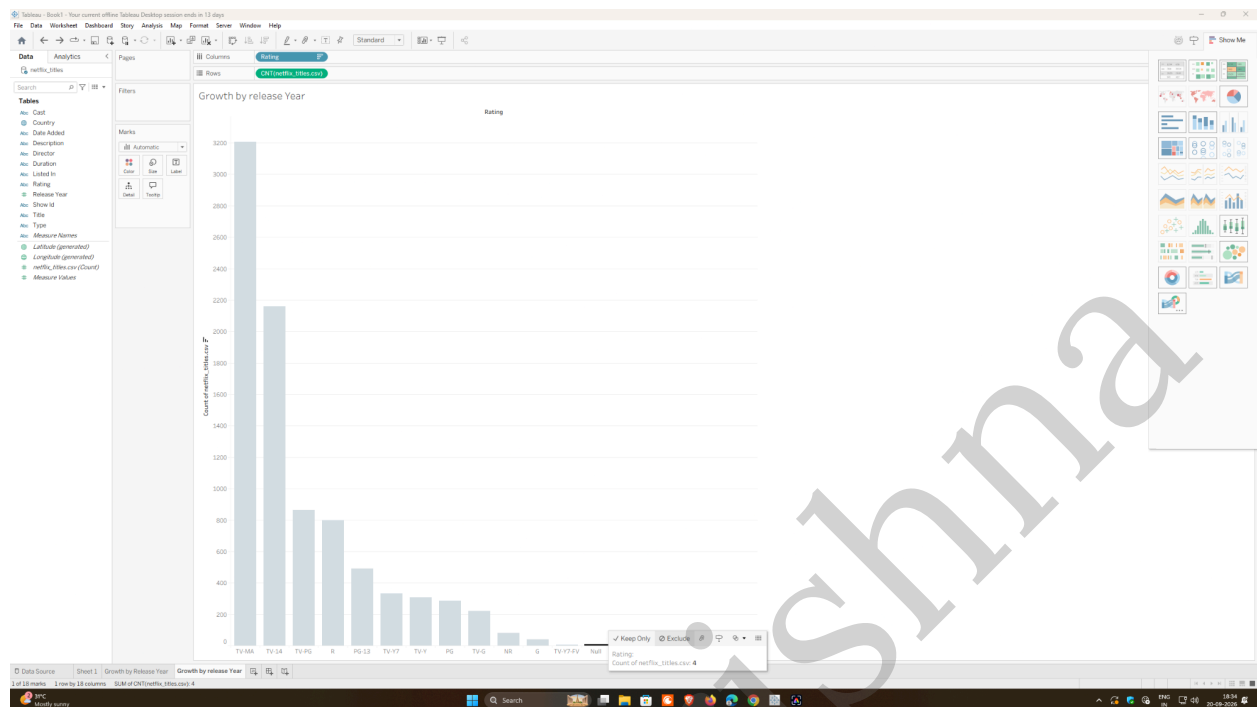

Sort the bars **descending by count** and filter out any **Null** ratings.

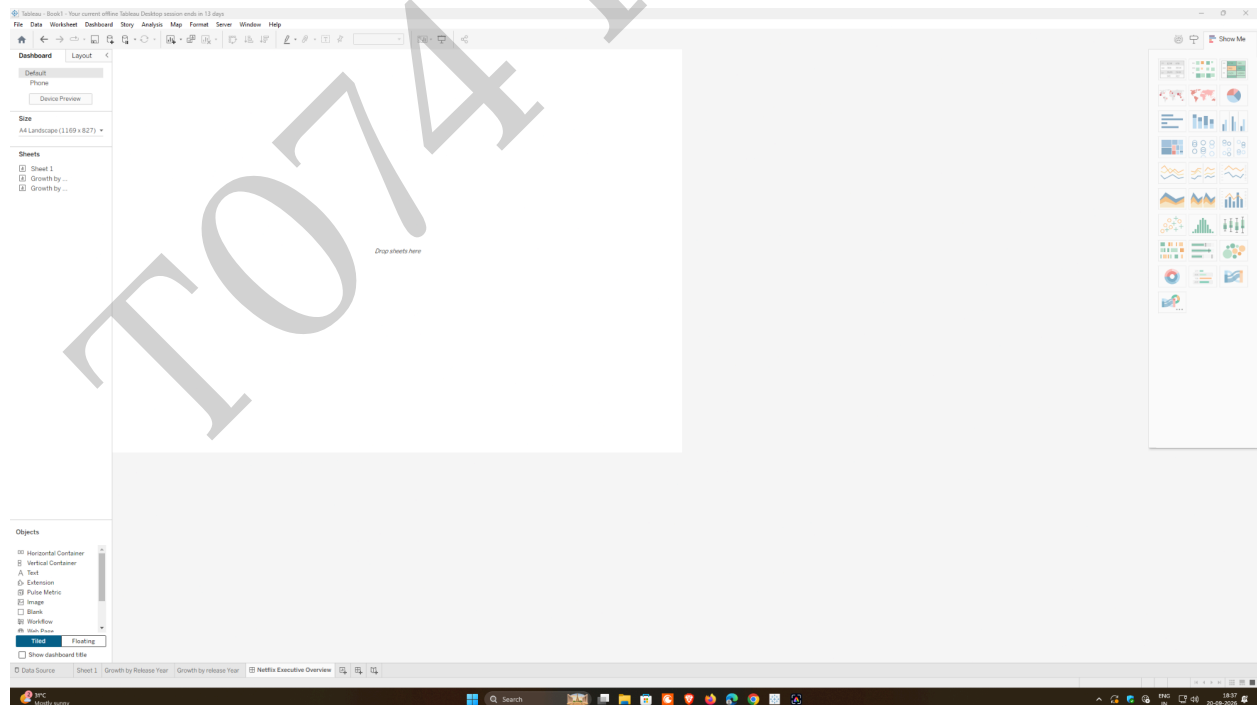

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

Step 2: Assemble the Executive Dashboard

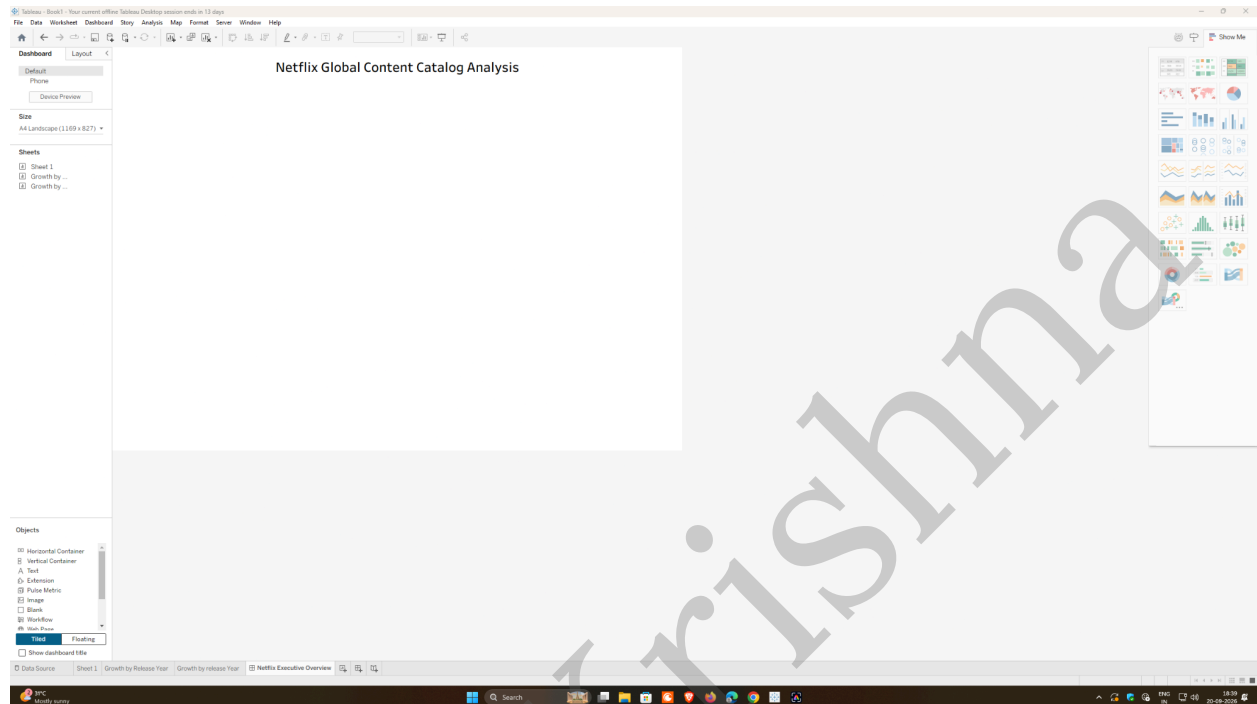

Create **Netflix Executive Overview** and set **Dashboard Size** → **Fixed** → **A4 Landscape (1169×827)** or **Letter Landscape (1100×850)**.

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

Add a **Horizontal/Vertical Container**, then place “**Netflix Global Content Catalog Analysis**” at the top in **20 pt Bold**.

Place **Content Type Split** top-left, **Top 10 Ratings** top-right, and **Growth by Release Year** across the bottom.

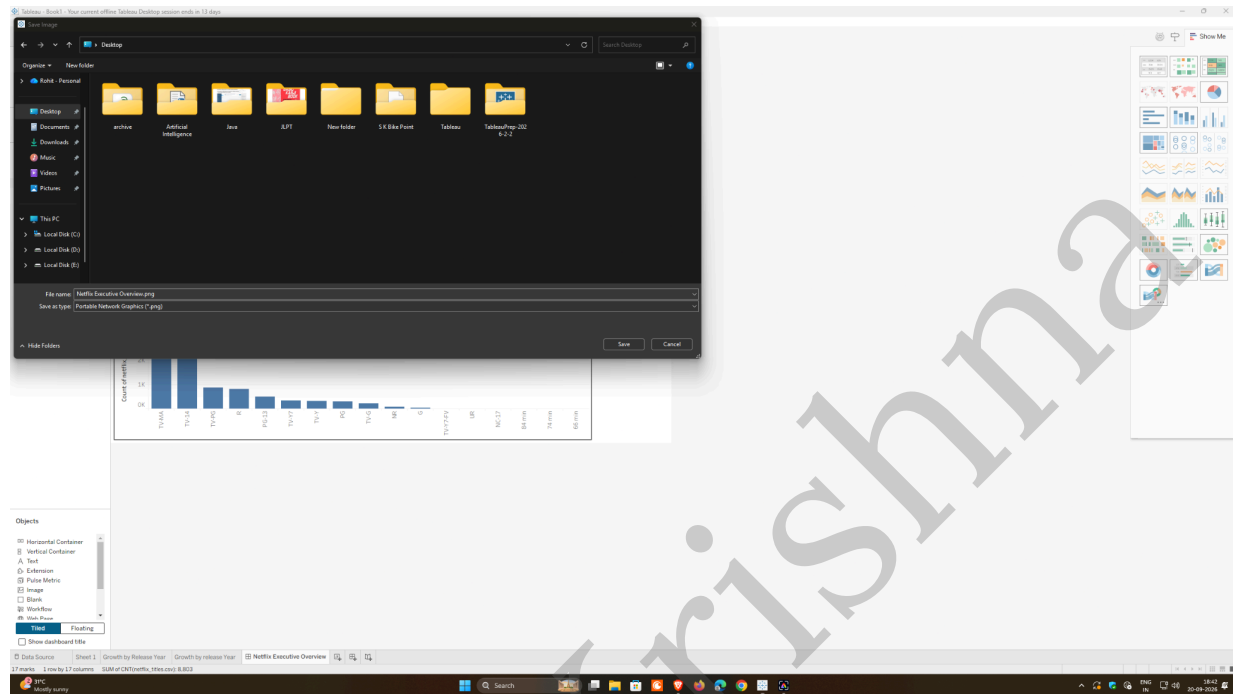

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

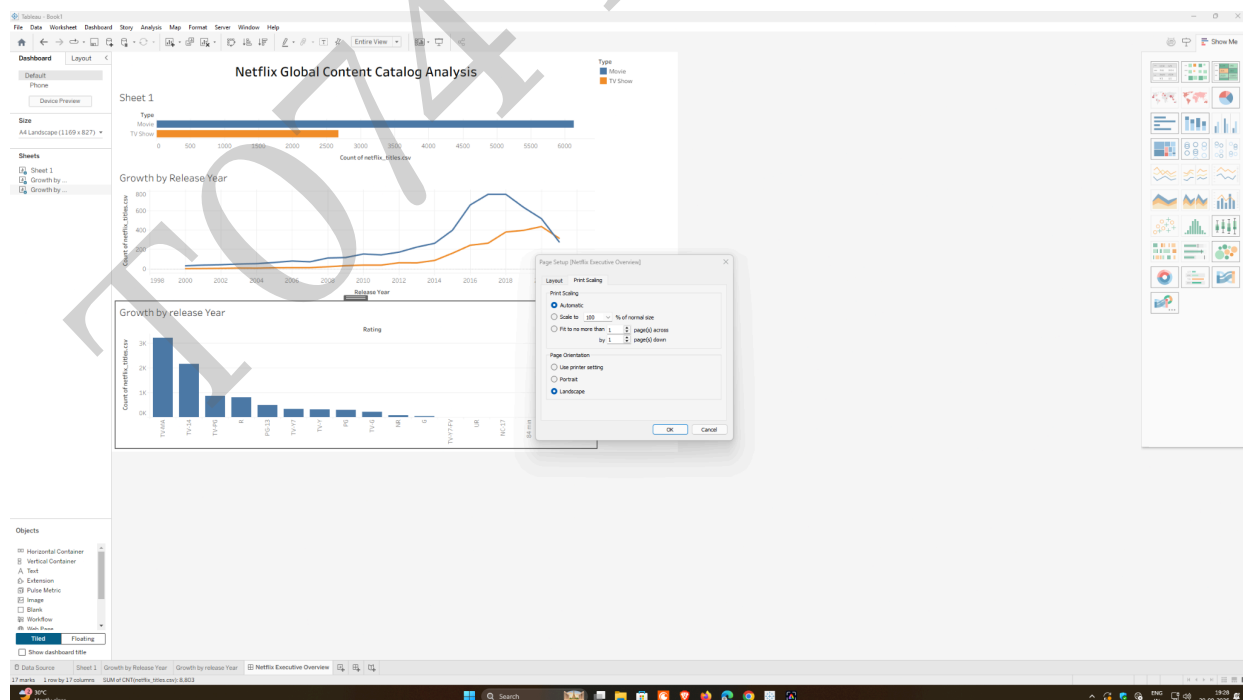

Step 3: Export as High-Resolution Image (Raster / Vector)

Go to **Dashboard** → **Export Image**, name it **Netflix_Executive_Overview.png**, select **PNG Image (*.png)**, and click **Save**.

Step 4: Configure Print Setup and Export to PDF

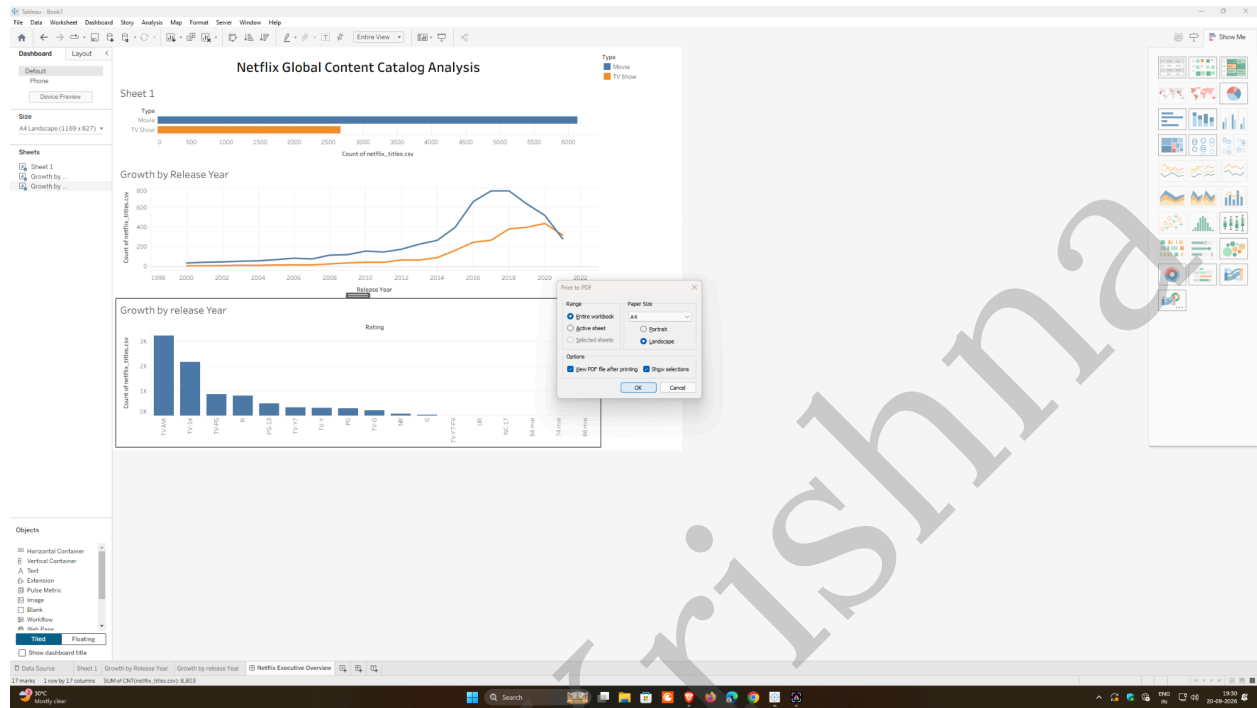

Go to **File** → **Page Setup**, select **A4/Letter** → **Landscape** → **Fit to 1x1 page**, then click **OK**.

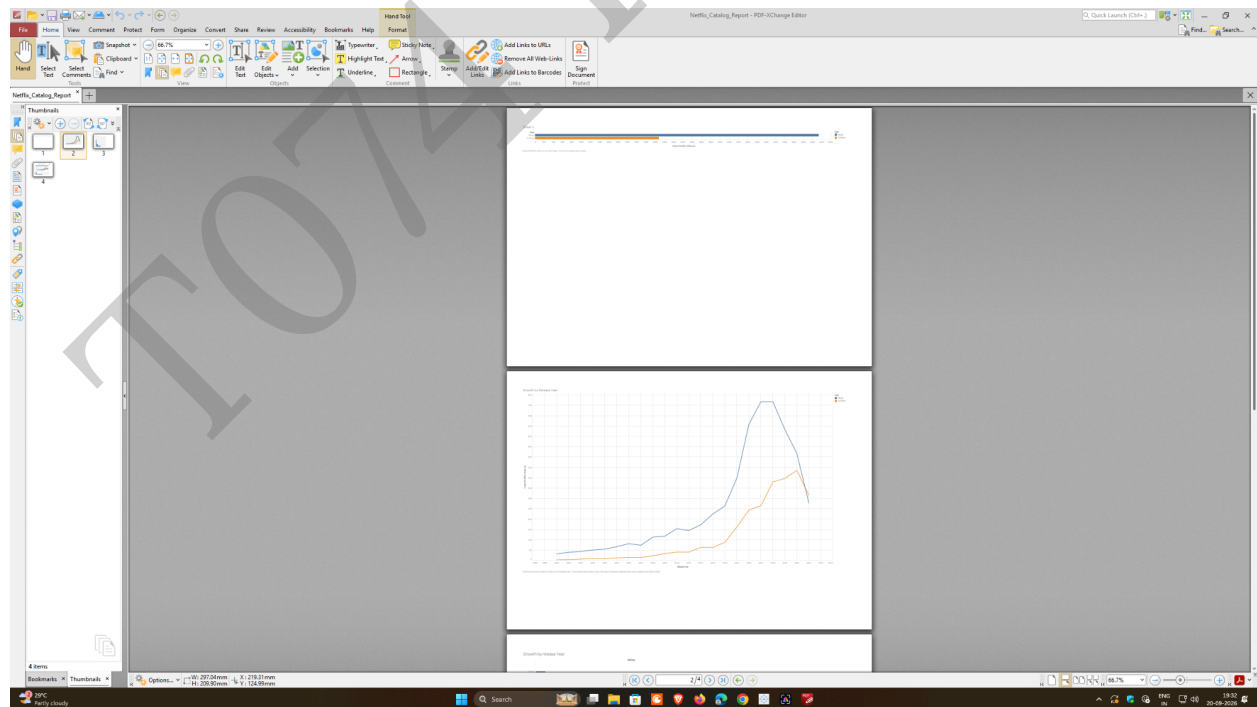

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

Go to **File** → **Print to PDF** → **This Dashboard** → **A4/Unspecified** → **Landscape**, click **OK**, and save as **Netflix_Catalog_Report.pdf**.

Open **Netflix_Catalog_Report.pdf** and verify clear output, no pixelation, and proper margin alignment.

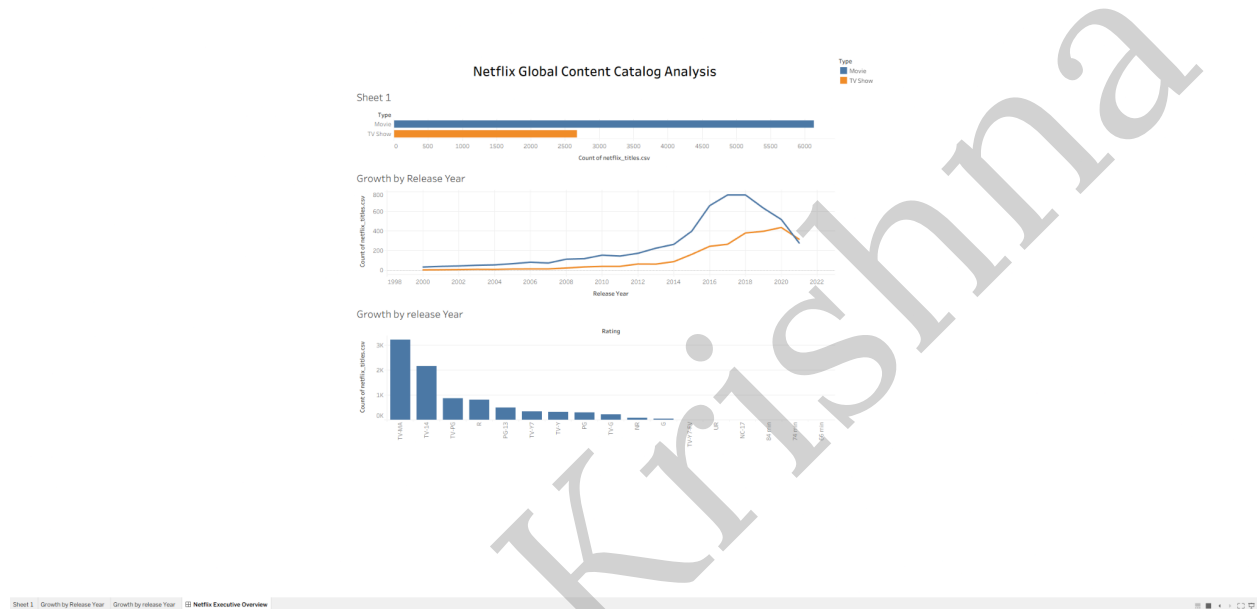

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

B: Use Presentation Mode in Tableau

Step 1: Launch Presentation Mode

Open **Netflix Executive Overview** and enter **Presentation Mode** using **F7/Cmd+Enter**, the **Presentation Mode icon**, or **Window → Presentation Mode**.

Step 2: Use On-Screen Presentation Controls

In **Presentation Mode**, use **←/→** or **Page Up/Down** for navigation, click marks for **cross-filtering**, hover for **tooltips**, and use **Revert** to reset filters.

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

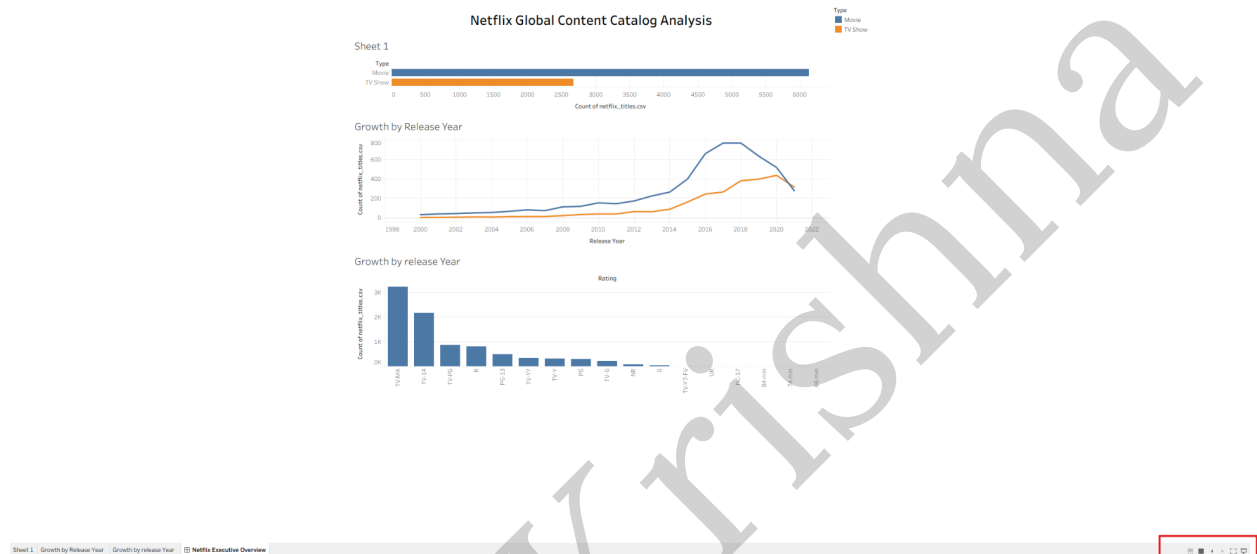

While in Presentation Mode, test the following live controls:

Hover over the data marks and verify that the **tooltips display accurate counts and dates clearly**.

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

Use **quick filters/legends** to filter or highlight categories, then use **Next/Previous Sheet** or **Page Up/Page Down** to navigate between worksheets and dashboards.

Step 3: Exit Presentation Mode

Press **Esc** or click **Exit Presentation Mode** to return to standard authoring mode.

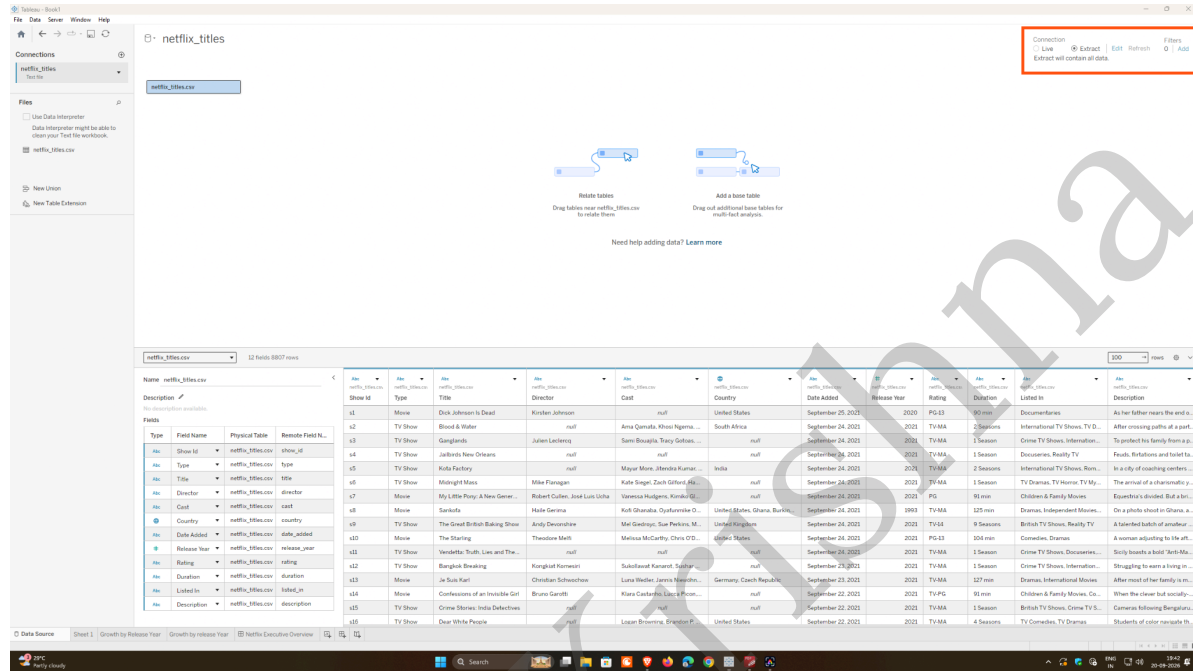

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

C: Publish Dashboards to Tableau Public

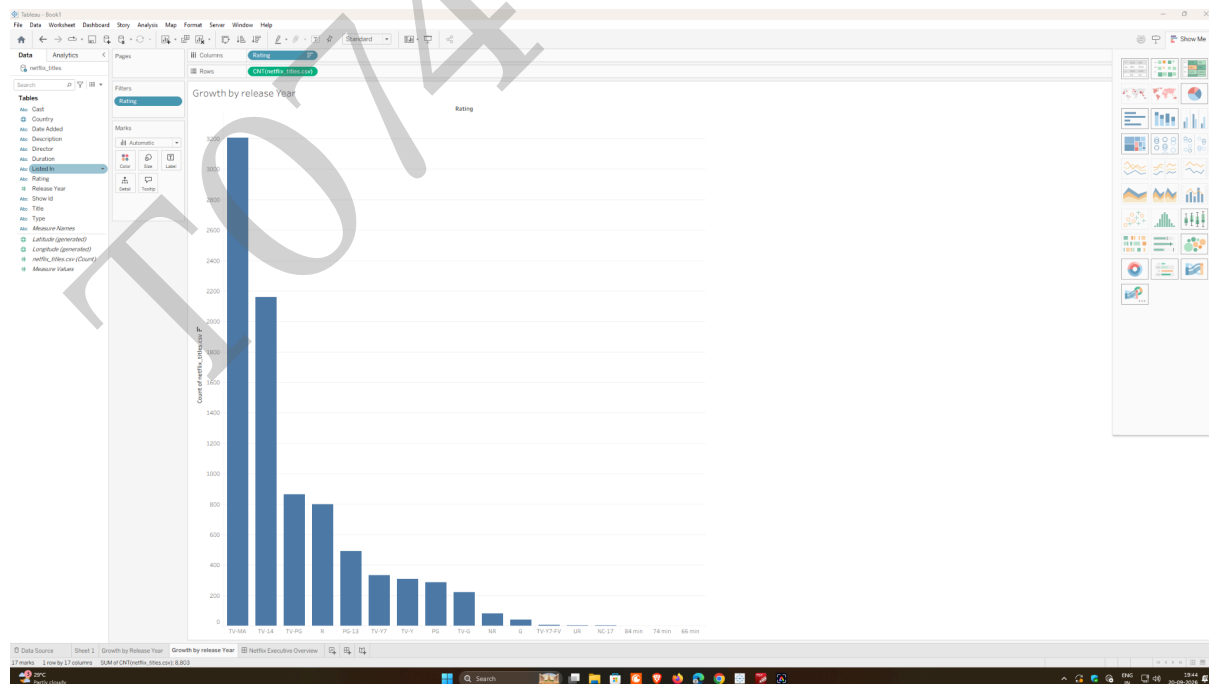

Step 1: Confirm Data Extract Status

Check the **Data Pane**: if two cylinders appear, the data is already extracted; otherwise go to **Data Source** → **Extract** and select the **Extract** option.

Step 2: Prune Unused Columns to Minimize File Footprint

In the **Data Pane**, open the drop-down menu and select **Hide All Unused Fields** to remove unused columns and reduce the packaged workbook size.

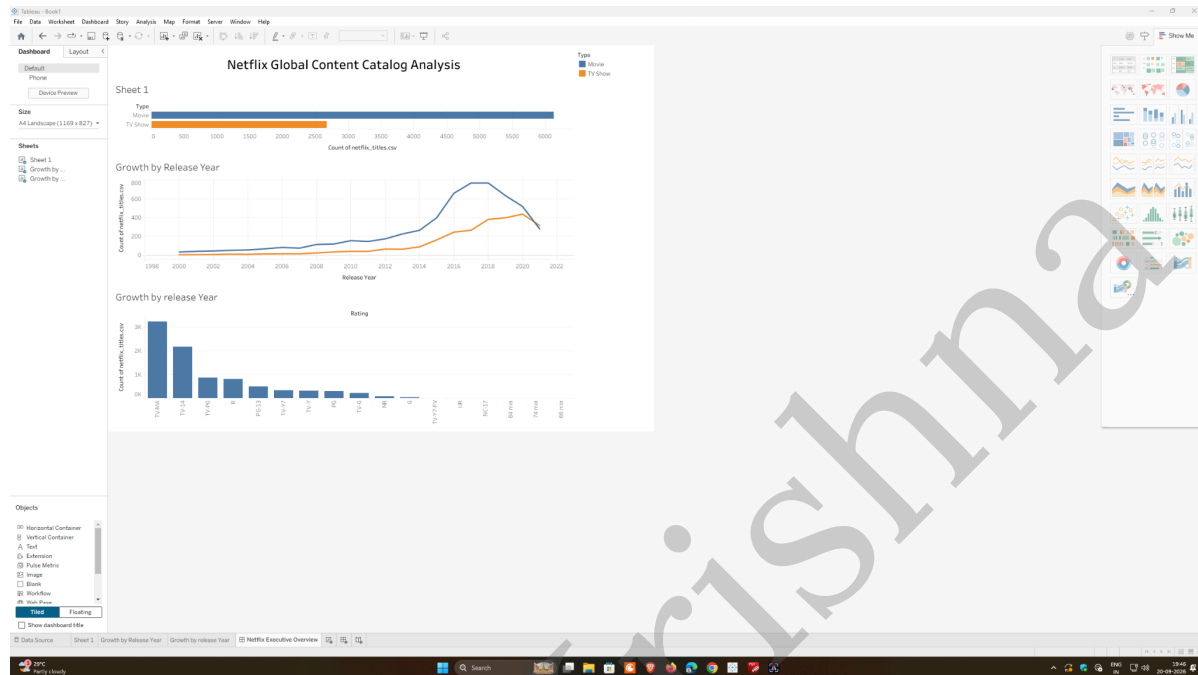

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

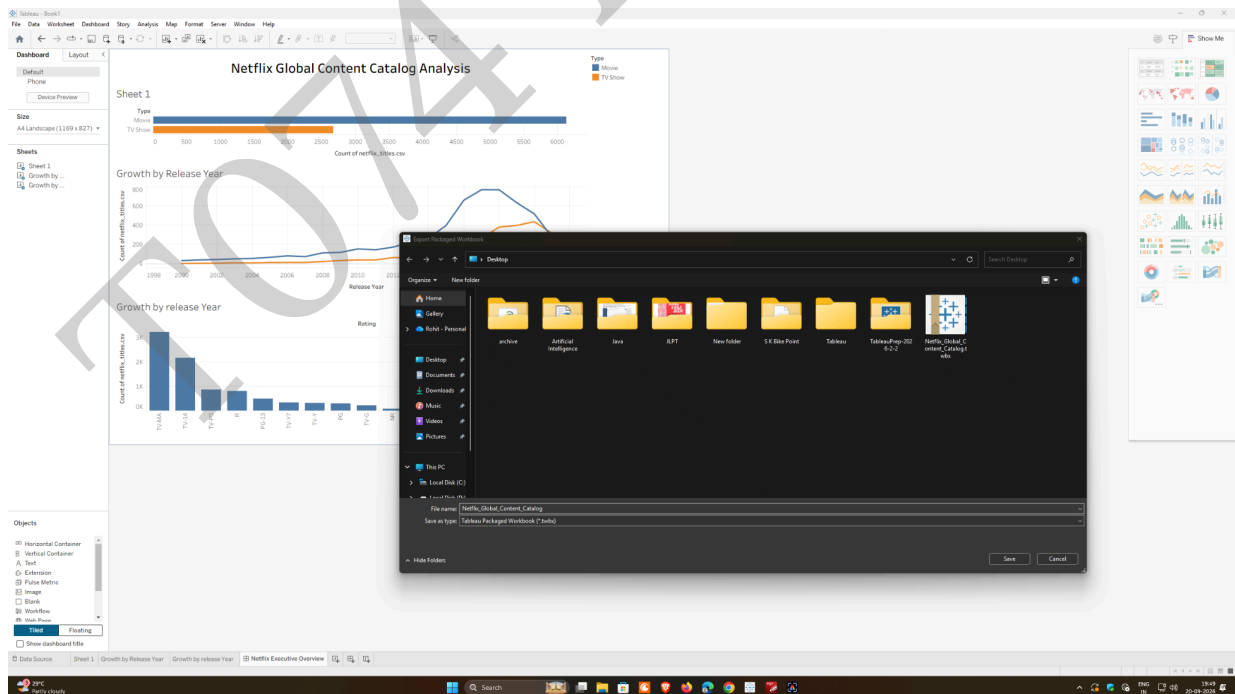

Step 3: Pin the Default Landing Tab

Open **Netflix Executive Overview** and set **Dashboard** → **Size** → **Fixed Size** (e.g., 1366×768 or A4 Landscape).

Step 4: Export the Standalone Packaged Workbook (.twbx)

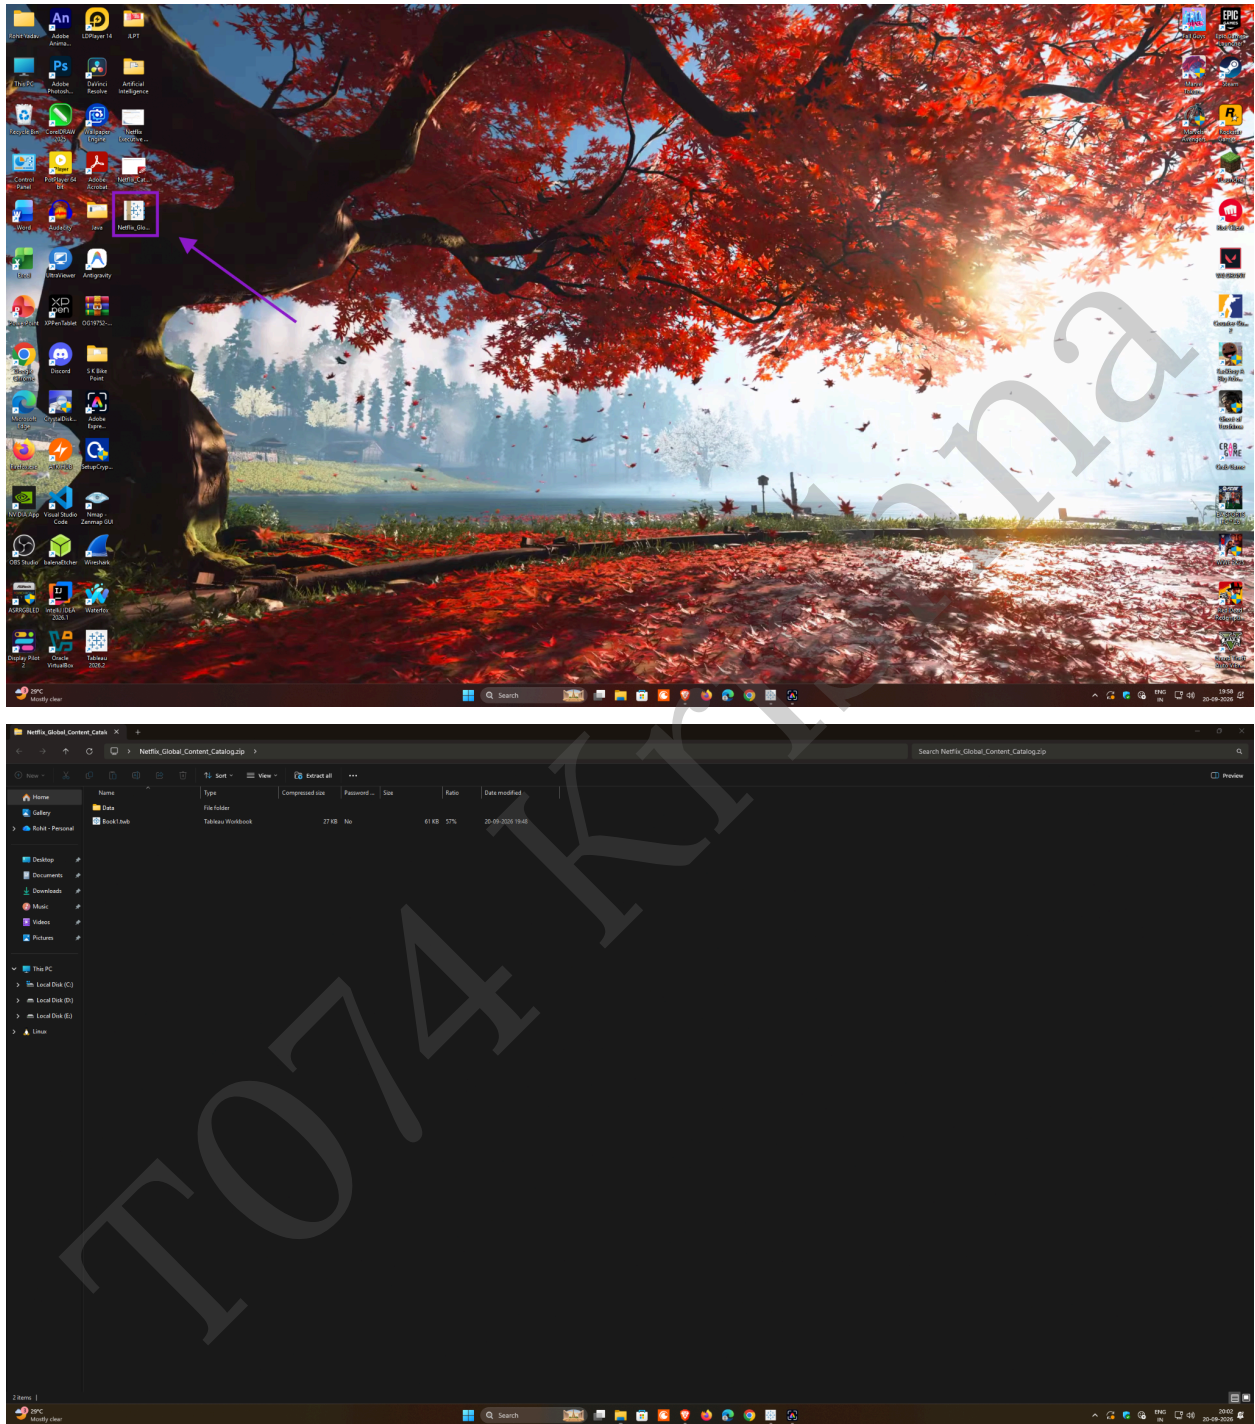

Go to **File** → **Export Packaged Workbook/Save As**, choose **.twbx**, name it **Netflix_Global_Content_Catalog.twbx**, and click **Save**.

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

Step 5: Verify Archive Integrity Locally

The **.twbx** package includes the required data, so the workbook can be shared or moved without the original **netflix_titles.csv** file.

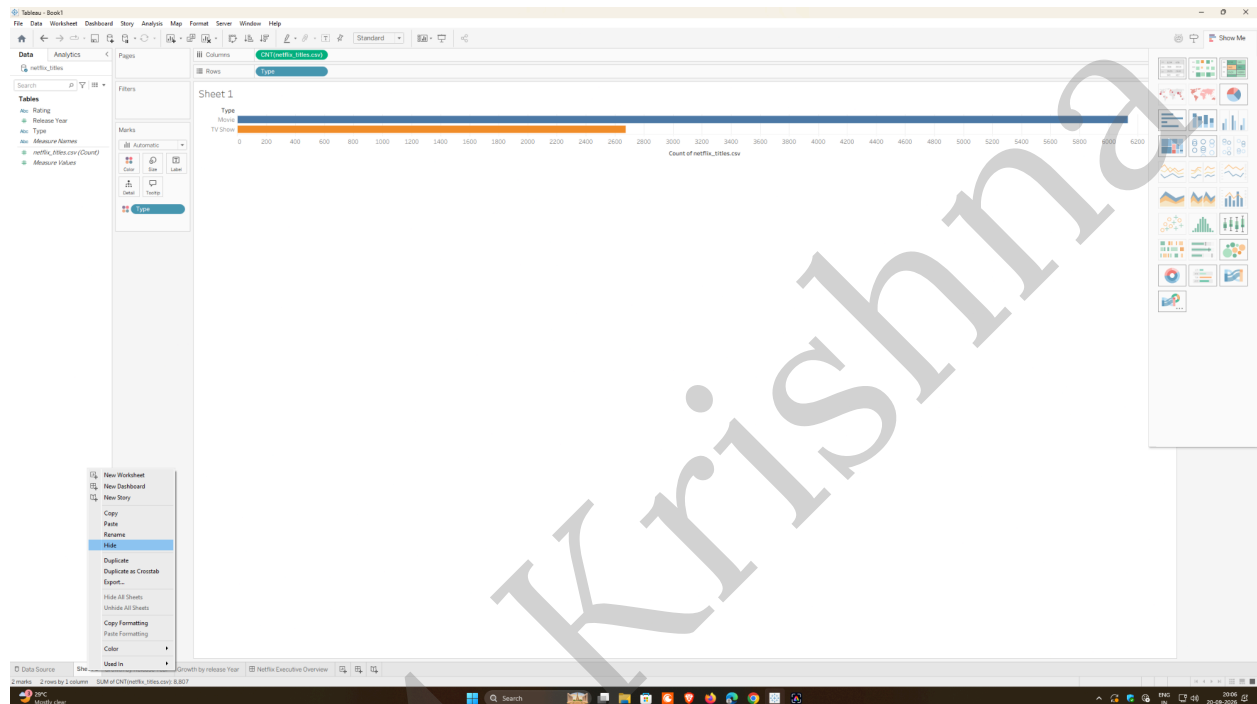

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

D: Share Dashboards via Tableau Server / Tableau Cloud

Step 1: Clean Up Workbook Tabs (Sheet Governance)

Right-click **Content Type Split**, **Growth by Release Year**, and **Top 10 Ratings**, select **Hide Sheet** for each, and ensure they are placed in the **Netflix Executive Overview** dashboard if the option is disabled.

Verify the Layout: Look at the bottom tab bar. Only the Netflix Executive Overview dashboard tab should now be visible.

Step 2: Configure Navigation and Sheet Tabs Settings

Go to **Window** → **Show Sheet Tabs**, hide the tabs if only the executive dashboard is needed, and verify the interface is clean and unobstructed.

Tableau Reader is a free desktop viewer for **Windows/macOS** that opens **.twbx** workbooks, allowing users to interact with dashboards and tooltips without editing the workbook or requiring the original data source.

Save **Netflix_Global_Content_Catalog.twbx**, close Tableau, reopen the **.twbx** file, and verify it opens to **Netflix Executive Overview**, hides underlying sheets, and requires no data-source paths or passwords.

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

E: Enable User Interaction on Shared Dashboards

Step 1: Create the Detail Sheet for Viz in Tooltip

Create **Tooltip Rating Breakdown**, drag **Rating** → **Rows**, **Count of netflix_titles.csv** → **Columns**, **Rating** → **Color**, then **sort bars descending**.

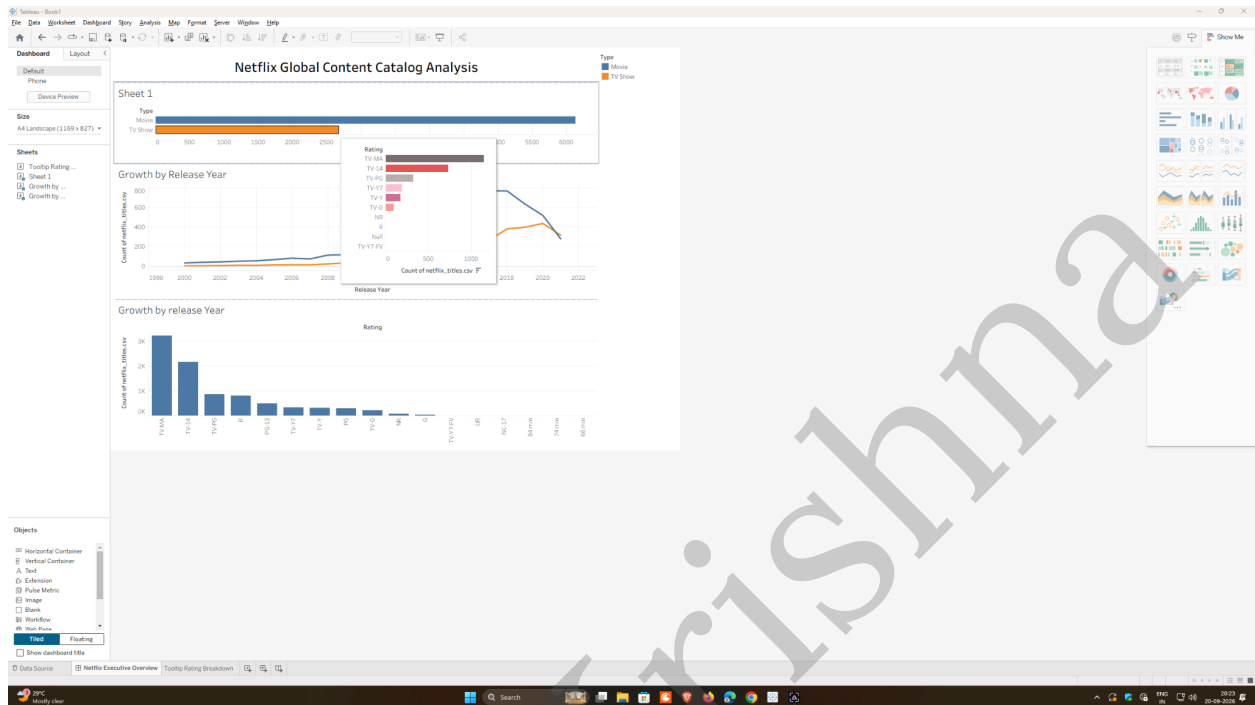

Step 2: Embed the Viz into the Main Tooltip

In **Content Type Split**, open **Marks** → **Tooltip** → **Insert** → **Sheets** → **Tooltip Rating Breakdown**, then click **OK** to embed the worksheet in the tooltip.

[illegible][illegible]

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

Hover over the **TV Show** bar and verify the tooltip mini-bar chart updates to display **TV show rating distribution** such as **TV-MA**, **TV-14**, etc.

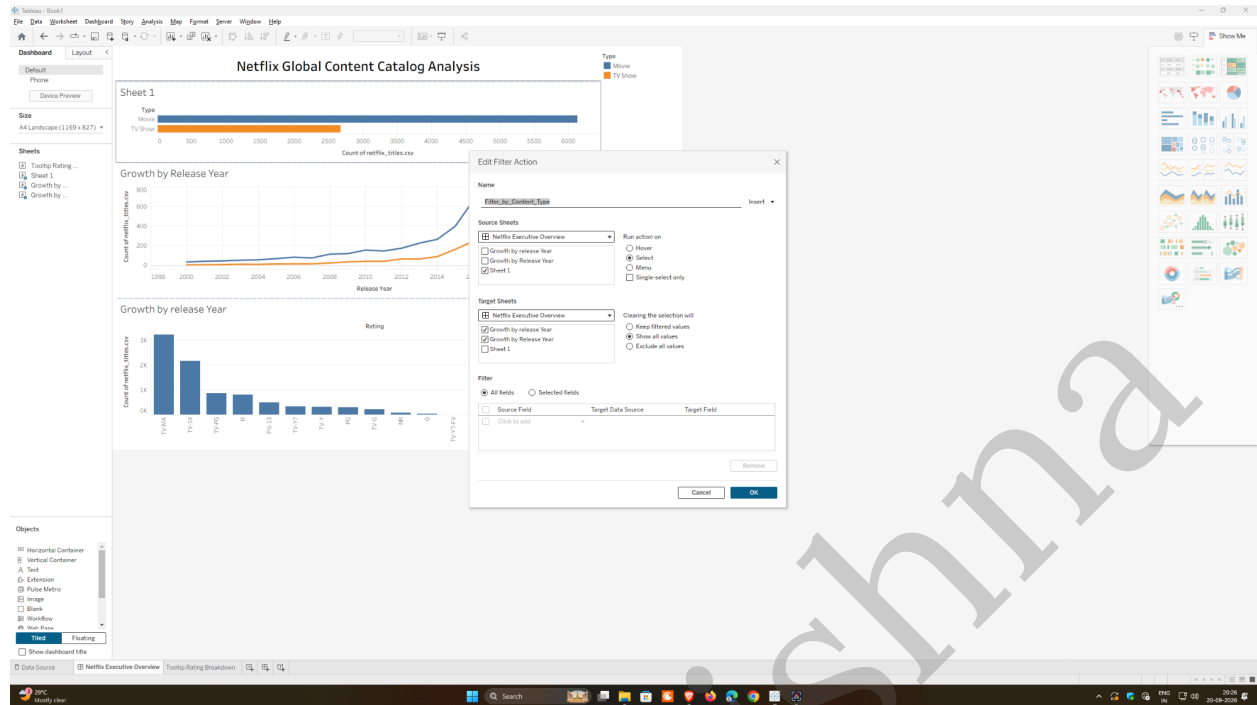

Step 3: Configure Dashboard Filter Actions (Cross-Filtering)

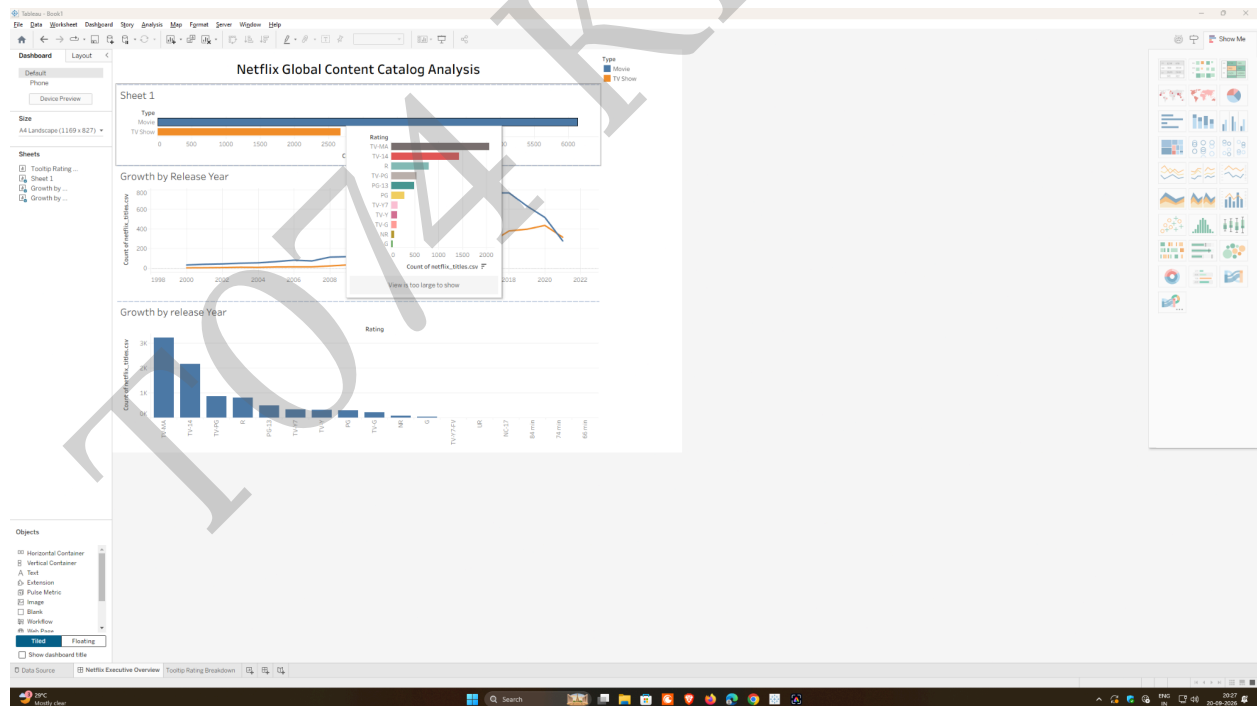

Open **Netflix Executive Overview** → **Dashboard** → **Actions** → **Add Action** → **Filter**, name it **Filter_by_Content_Type**, set **Content Type Split** as Source (Select), **Growth by Release Year** and **Top 10 Ratings** as Targets, choose **Show all values** when cleared, leave **All Fields**, and click **OK**.

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

Click **OK** → **OK**, then click the **Movie** bar to filter the line chart to **Movies only**, and click it again to **clear the filter**.

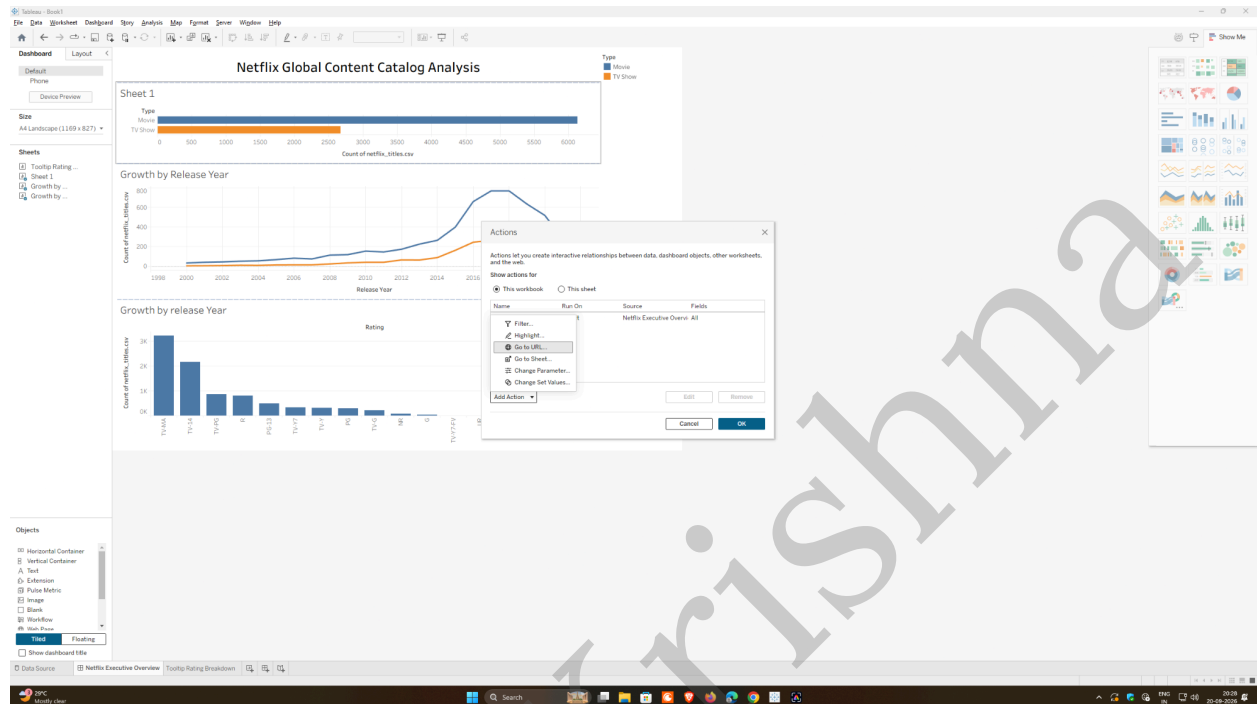

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

Step 4: Add a Contextual Web URL Action

Go to **Dashboard** → **Actions** → **Add Action** → **Go to URL**.

Configure the URL Action: o Name: Search Google for <Type>

Set **Source Sheets** → **Content Type Split**, **Run action on** → **Menu**, and enter

<https://www.google.com/search?q=Netflix++Catalog>, inserting dynamically via the arrow next to the URL field, Click OK, then click OK to close.

T074 Krishna Chaudhary

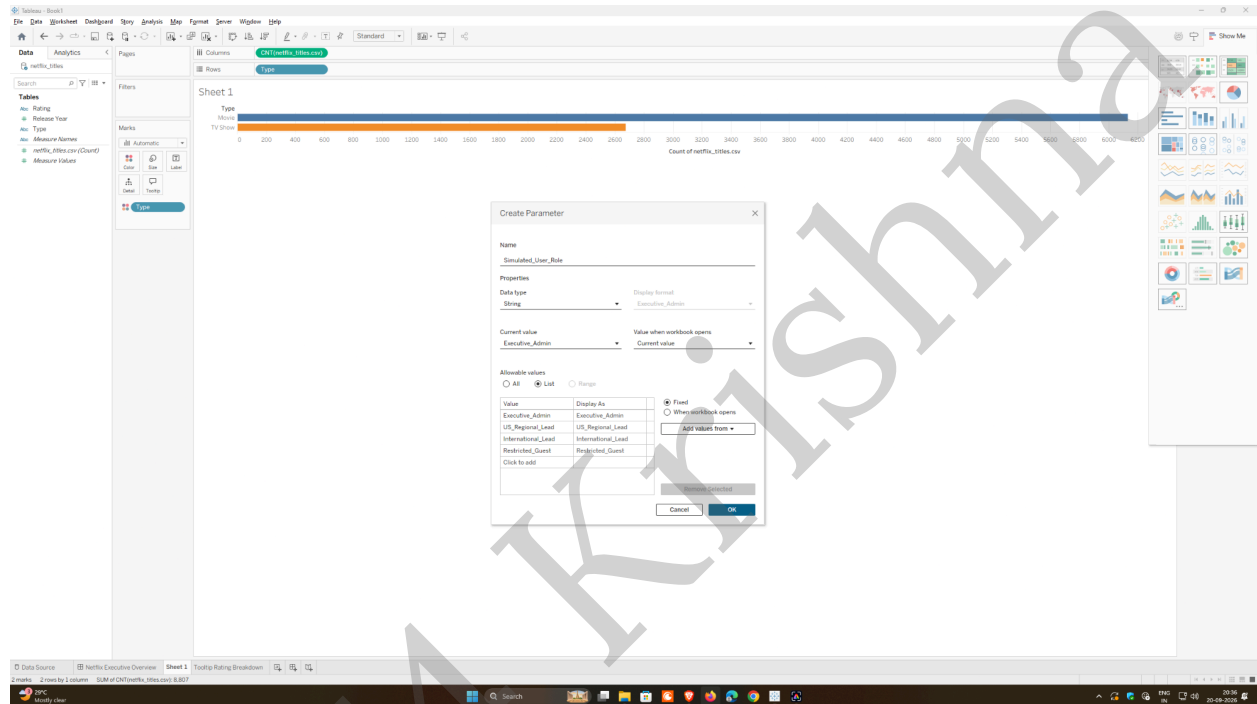

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

F: Manage Permissions and Access Control

Step 1: Create the User Persona Simulation Parameter

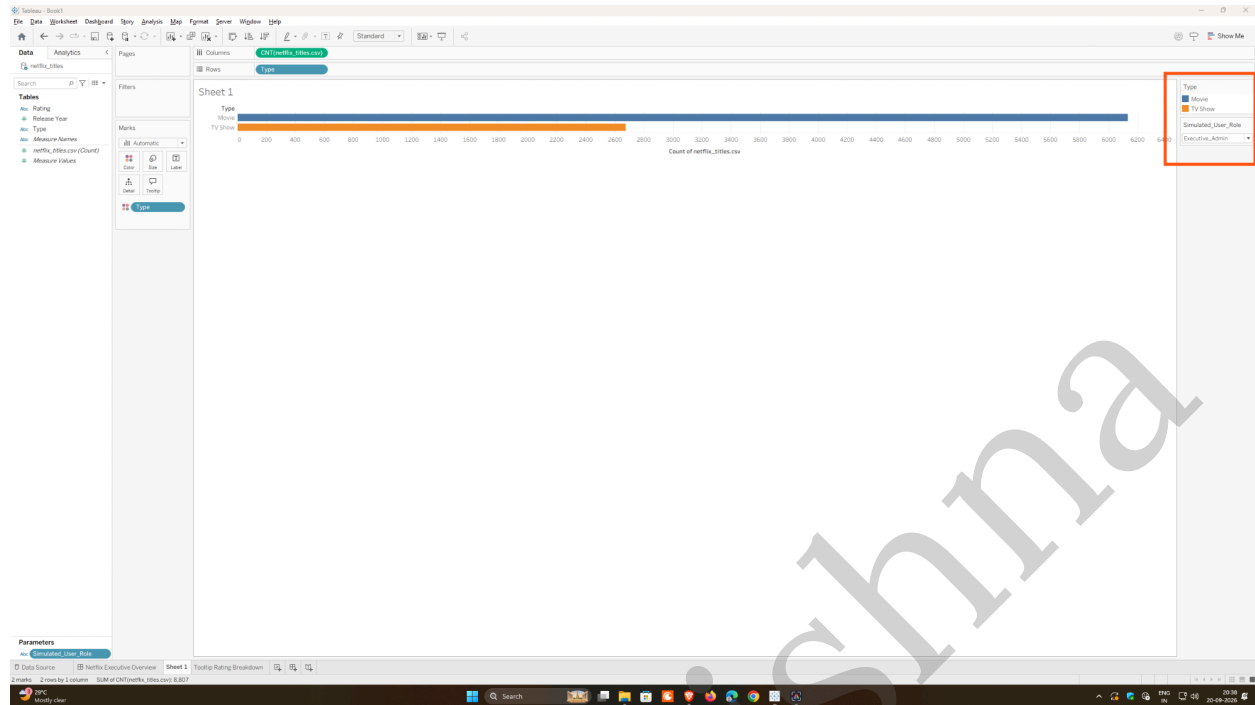

In the **Data Pane**, select **Create Parameter**, name it **Simulated_User_Role**, set **Data type** → **String**, **Allowable values** → **List**, add **Executive_Admin**, **US_Regional_Lead**, **International_Lead**, **Restricted_Guest**, and set **Current value** → **Executive_Admin**.

In the Data Pane under Parameters, right-click **Simulated_User_Role** --> select **Show Parameter**.

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

Step 2: Write the Access Control Calculated Field

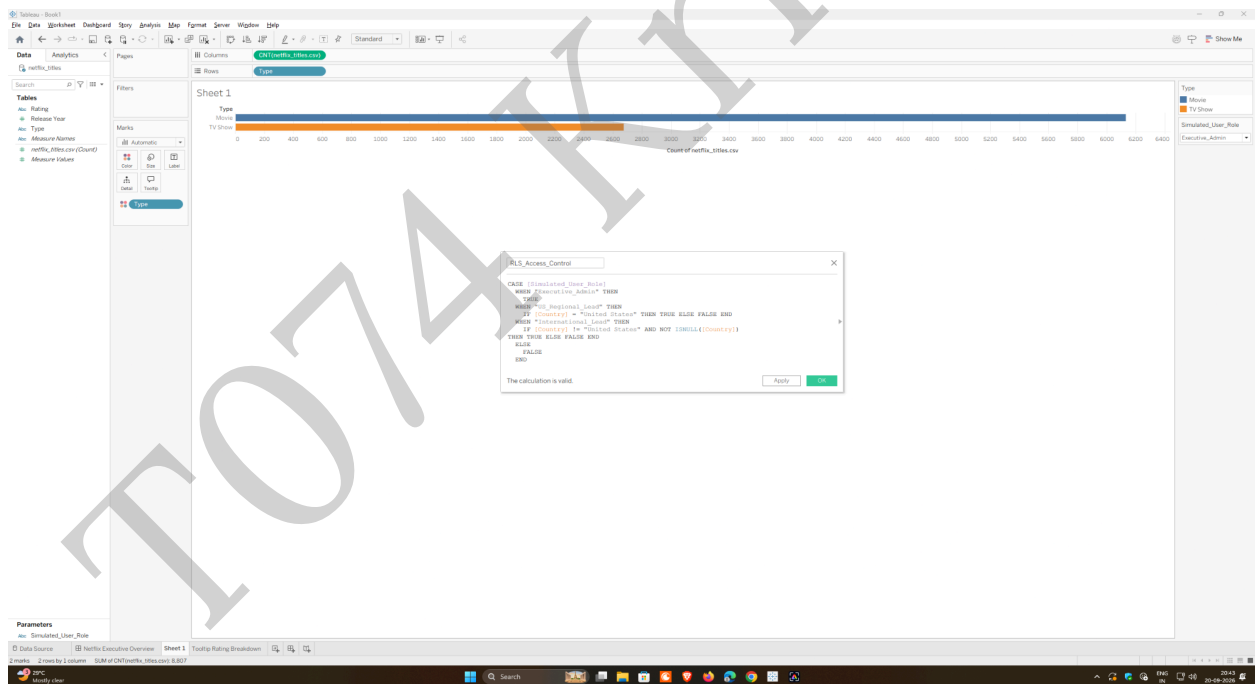

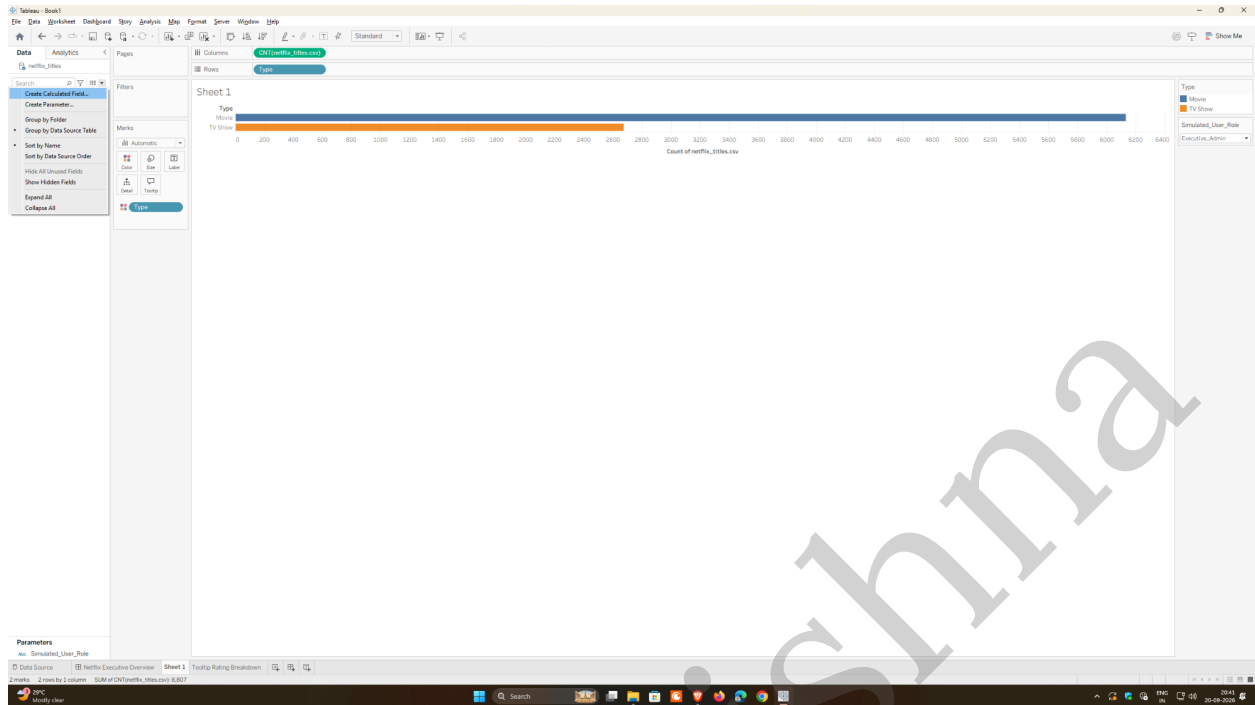

Right-click an empty space in the Data Pane --> select Create Calculated Field....

Configure the field:

- Field Name: RLS_Access_Control
- Tableau Formula:
CASE [Simulated_User_Role]
WHEN "Executive_Admin" THEN
TRUE
WHEN "US_Regional_Lead" THEN
IF [Country] = "United States" THEN TRUE ELSE FALSE END
WHEN "International_Lead" THEN
IF [Country] != "United States" AND NOT ISNULL([Country]) THEN TRUE
ELSE
FALSE
END

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

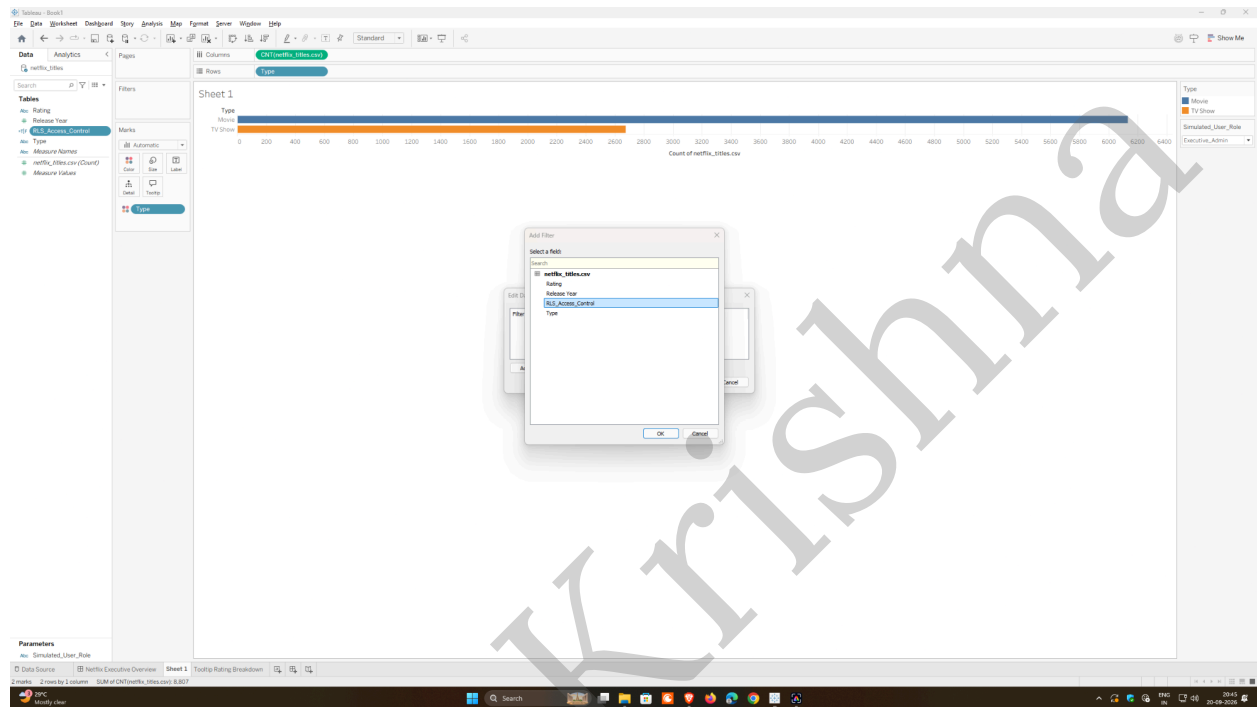

SHETH L.U.J AND SIR M.V. COLLEGE

SUBJECT NAME: DATA VISUALIZATION WITH POWER BI & TABLEAU

Step 3: Enforce Access Control at the Data Ingestion Layer

Go to **Data** → **netflix_titles** → **Edit Data Source Filters** → **Add** →

RLS_Access_Control → **OK**, select **True**, then click **OK** → **OK** to apply the row-level security filter.

Step 4: Test and Verify Role-Based Permissions

Switch **Simulated_User_Role** on the dashboard and verify access changes in real time: **Executive_Admin** → **all titles**; **US_Regional_Lead** → **US titles only**; **International_Lead** → **non-US titles**; **Restricted_Guest** → **blank view (zero rows)**.

G: Evaluate and Optimize Sharing Strategies

Step 1: Comparative Evaluation of Local Distribution Strategies

Distribution Method	Output File Format	Recipient Requirements	Interactivity Level	Best Use Case	Key Vulnerability / Tradeoff
Packaged Workbook	.twb x	Tableau Desktop or free Tableau Reader	High (Full crossfiltering, tooltips, parameters)	Sending interactive dashboards to colleagues for standalone exploration	Embeds the entire dataset inside the file; security risk if underlying data is sensitive
Standard Workbook	.twb	Tableau Desktop + Access to original data path	High (Full authoring and filtering)	Developer version control and local script repositories	Contains only XML metadata and visualization code; will show broken links if the CSV moves
Vector Document	.pdf	Any PDF reader (Adobe, Web Browser)	None (Static printout)	Formal board packs, audited regulatory submissions, executive briefings	Cannot drill down or interact; multi-page scaling must be managed manually
High-Res Graphic	.png / .emf	Slide software (PowerPoint, Keynote)	None (Static snapshot)	Slide decks, email summaries, internal wiki articles	Fixed resolution; tooltip details and hidden marks are lost
